**Guideline for Taking up Demonstration of New/Innovative Technologies for Air Pollution
Control/Abatement**

CPCB has been receiving a number of proposals regarding new/ innovative technologies for air pollution control. Following process shall be followed for taking up demonstration of such technologies:

1. Preliminary scrutiny of proposals shall be done at AQM division of CPCB and only those meeting the criteria and scope of project related to air pollution mitigation will be forwarded to DST for assessing feasibility and soundness of proposals.
2. DST will examine the proposals and send its recommendation to CPCB clearly indicating whether the proposed technology may be considered for demonstration or not. It will also specify terms and conditions for demonstration in each case.
3. Proposal for financial support for demonstration under EPC funds shall be placed for consideration of PAAC, after receiving recommendation from DST.
4. CPCB will issue letter of approval for demonstration to project proponents, clearly specifying place, duration and terms and conditions of demonstration, performance evaluation criteria, monitoring protocol, etc.

This is issued with the approval of Competent Authority, Central Pollution Control Board
