F.No. B-13011/Skill India/ETU/2016-17/

Dated: 14.09.2017

**Sub.: Skill Development Programme on "Environmental Pollution Control"
– Reg.**

Sir/Madam,

Proposals are invited for conducting training programme under "National Skill Development Mission" to rural unemployed youth for all over India so as to enhance employment opportunities to the youth. The training course is proposed for the incumbents/operators of 10th/12th pass between the age group of 18 to 30 years through organizations of repute preferably State/Central Government recognized on the following subject:

1. Treatment Plant (including STP) Operations and Maintenance
2. Air Pollution Control Equipment Operation Maintenance
3. Waste Handling & Disposal for Bio-Medical Wastes, E-wastes, Municipal Solid Waste, Industrial Wastes, Construction and Demolition Wastes, etc.

Interested Institutes/Agencies may forward the training course module for the skill development, methodology in handling, operation and maintenance of instruments/equipment, quality assurance, standard operating procedures/protocol related to above subjects for a period of three months duration (minimum 360 hrs.). The approximate budget/expenditure for the training programme module/schedule with details of faculties, training centres and infrastructure facilities available be furnished within 15 days to the Administrative Officer, Environmental Training Unit through e-mail: cpcb.etu@gmail.com.

(S.K. Tyagi)
