

## Air Quality Index on Jul 05, 2018 @ 4 PM

(Average of past 24 hours)

| S.No | City         | Air Quality  | Index Value | Prominent Pollutant                | Based on Number of Monitoring Stations |
|------|--------------|--------------|-------------|------------------------------------|--|
| 1    | Agra         | Satisfactory | 62          | PM <sub>2.5</sub>                  | 1                                      |
| 2    | Ahmedabad    | Moderate     | 196         | PM <sub>2.5</sub>                  | 1                                      |
| 3    | Ajmer        | Satisfactory | 97          | PM <sub>10</sub>                   | 1                                      |
| 4    | Alwar        | Moderate     | 122         | PM <sub>10</sub>                   | 1                                      |
| 5    | Amaravati    | Satisfactory | 65          | PM <sub>10</sub>                   | 1                                      |
| 6    | Amritsar     | Satisfactory | 64          | PM <sub>10</sub>                   | 1                                      |
| 7    | Asanol       | Satisfactory | 72          | CO                                 | 1                                      |
| 8    | Aurangabad   | Good         | 40          | NO <sub>2</sub>                    | 1                                      |
| 9    | Bathinda     | Moderate     | 151         | PM <sub>10</sub>                   | 1                                      |
| 10   | Bengaluru    | Satisfactory | 56          | PM <sub>10</sub> , NO <sub>2</sub> | 9                                      |
| 11   | Bhiwadi      | Moderate     | 198         | PM <sub>10</sub>                   | 1                                      |
| 12   | Brajrajnagar | Moderate     | 101         | CO                                 | 1                                      |

### Possible Health Impacts

|              |   |
|--------------|---|
| Good         | Minimal Impact  |
| Satisfactory | Minor breathing discomfort to sensitive people                            |
| Moderate     | Breathing discomfort to the people with lungs, asthma and heart diseases  |
| Poor         | Breathing discomfort to most people on prolonged exposure                 |
| Very Poor    | Respiratory illness on prolonged exposure                                 |
| Severe       | Affects healthy people and seriously impacts those with existing diseases |

### Notes

\* AQI is not calculated for today's bulletin for Navi Mumbai, Panchkula, Pune, Rupnagar, Thane as data was not available.  
 # Some stations have data available at 3PM  
 \* In case of a city with multiple monitoring locations, average value is used to indicate air quality. Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpcb.nic.in>) may be referred.

Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpcb.nic.in>) may be referred.

## Air Quality Index on Jul 05, 2018 @ 4 PM

(Average of past 24 hours)

| S.No | City          | Air Quality  | Index Value | Prominent Pollutant | Based on Number of Monitoring Stations |
|------|---------------|--------------|-------------|---------------------|--|
| 61   | Varanasi      | Satisfactory | 77          | CO                  | 1                                      |
| 62   | Vijayawada    | Satisfactory | 63          | PM <sub>10</sub>    | 1                                      |
| 63   | Visakhapatnam | Satisfactory | 93          | PM <sub>10</sub>    | 1                                      |

### Possible Health Impacts

|              |   |
|--------------|---|
| Good         | Minimal Impact  |
| Satisfactory | Minor breathing discomfort to sensitive people                            |
| Moderate     | Breathing discomfort to the people with lungs, asthma and heart diseases  |
| Poor         | Breathing discomfort to most people on prolonged exposure                 |
| Very Poor    | Respiratory illness on prolonged exposure                                 |
| Severe       | Affects healthy people and seriously impacts those with existing diseases |

### Notes

\* AQI is not calculated for today's bulletin for Navi Mumbai, Panchkula, Pune, Rupnagar, Thane as data was not available.

# Some stations have data available at 3PM

\* In case of a city with multiple monitoring locations, average value is used to indicate air quality. Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpcb.nic.in>) may be referred.
