No. Tannery/ online/IPC-IV/2017-18/ 18807

Speed Post
March 20, 2018

To:
M/s M.A. Raheem Quraishi & Sons
6-13-38, Safai Basthi, Kothagudem,
Telangana

Sub: Directions under Section 5 of the Environment (Protection) Act, 1986 for proper functioning of on-line continuous effluent monitoring system.

WHEREAS, Tannery industries are identified as one of the 17 categories of highly polluting industries which have been discharging environmental pollutants directly or indirectly on land or into water, having potential threat to cause adverse effect on land and the water quality; and

WHEREAS, there is need to inculcate habit of self monitoring within the industries for complying with the prescribed standards, and this can be achieved by the methods like installing online effluent monitoring devices; and

WHEREAS, Central Pollution Control Board (CPCB) issued Directions under section 18 (1) (b) of the Water (Prevention & Control of Pollution) Act, 1974 on February 05, 2014 to all the State Pollution Control Boards (SPCBs)/ Pollution Control Committees (PCCs) to ensure installation of Online Continuous Effluent Monitoring System in tannery industries for online measurement of Flow, pH, TSS, BOD and COD parameters and connecting and uploading the monitoring data on the Servers of concerned SPCB/ PCC and CPCB by March 31, 2015; and

WHEREAS, CPCB clarified vide guidelines dated November 7, 2014 as uploaded on CPCB website that flow meter and web camera may be installed in case of Units with zero liquid discharge (ZLD) by March 31, 2015 and vide FAQs posted on CPCB website in September 2015 that CETP member units shall install only online electromagnetic flow meter and web camera; and

WHEREAS, considering the requests/ representations received from industries/ industrial associations/ SPCBs/PCCs, CPCB vide directions dated March 02, 2015 issued under section 18 (1) (b) of the Water (Prevention & Control of Pollution) Act, 1974 granted an extension of time up to June 30, 2015 for installation of online monitoring systems; and

WHEREAS, Chairman, CPCB vide letter dated May 29, 2015 informed to all the SPCBs/PCCs that no further extension of time will be given after June 30, 2015 and withdrawal of consent to operate along with forfeiture of bank guarantee of non-complying Units will be the only option; and

Obil

WHEREAS, in exercise of the powers delegated to the Chairman, CPCB under section 5 of the Environment (Protection) Act, 1986, a show-cause notice for Closure cum Directions dated July 22, 2015 was issued to tannery industries including your Unit namely M/s M.A. Raheem Quraishi & Sons 6-13-38, Safai Basthi, Kothagudem, Telangana (hereafter referred as "Unit") for non-installation of OCEMS by June 30, 2015 which also directed for submission of documentary evidence regarding status of installation of online effluent monitoring system; and

WHEREAS, it was observed from the Unit's reply to the above notice and the information received from SPCB that the Unit has not installed OCEMS; and

WHEREAS, the Unit was having individual ETP and thus required to install OCEMS for Flow, pH, TSS, BOD and COD parameters; and

WHEREAS, Chairman, CPCB in exercise of the powers delegated, under section 5 of the Environment (Protection) Act, 1986, issued final notice to the Unit vide letter dated 10.12.2016 to install OCEMS and provide data connectivity to CPCB Central Portal by January 31, 2017; and

WHEREAS, the Unit did not submit any reply to the final closure notice and accordingly Chairman, CPCB issued closure directions under Section 5 of the Environment (Protection) Act, 1986 to the Unit vide letter dated March 17, 2017; and

WHEREAS, the Unit vide letter dated October 09, 2017 informed about installation of OCEMS and its connectivity to CPCB and submitted self-certificate of closure and accordingly requested CPCB for revoke of closure directions; and

WHEREAS, the case of revocation of the closure directions issued to the unit was examined by CPCB at appropriate levels and the Closure Directions issued to the Unit on 17.03.2017 were revoked on Nov. 21, 2017 subject to following conditions :

1. The Unit shall run with valid Consent under the Water (Prevention & Control of Pollution) , Act, 1986 from the Telangana State Pollution Control Board.
2. The Unit shall ensure all time compliance with the prescribed discharge norms and proper functioning of OCEMS.
3. The unit shall be inspected within a period of one month from the date of issue of these revocation directions by CPCB Regional Directorate - South, Bengaluru to verify the compliance.

WHEREAS, in order to ensure compliance of the CPCB Revocation Directions dated Nov. 21, 2017, a team of Scientists from Regional Directorate - South, CPCB, Bengaluru, inspected the industry i.e. M/s M.A Raheem Quraishi & Sons, 6-13-38, Safai Basthi, Kothagudem, Telangana on 24.1.2018 and major observations requiring attention of the Regulating Authorities are as follows :

- i. The Unit is engaged in processing of raw hides to semi-finished leather through vegetable tanning with consented capacity of 1000 pieces per day. During inspection, Unit was in operation with reported production of 600 pieces per day i.e. not at full capacity.

- ii. Source of water is the ground water and industry has not installed water meters to quantify freshwater consumption.
- iii. The Unit is having ETP based on biological treatment system and the finally treated effluent is being used for gardening purpose. Samples collected at the outlet of ETP were analysed and observed that it is meeting with the prescribed standards in respect of BOD₃ days (27°C) - 23 mg/l (standard - 30 mg/l) and TSS - 8mg/l (standard - 50mg/l).
- iv. The industry has installed OCEMS. However, during inspection, data of only BOD parameter was displayed in CPCB Server. Data in respect of other parameters was not displayed.
- v. Large variations in the values recorded by OCEMS and manual monitoring are observed which indicate that proper calibration of the OCEMS are not being made. It was informed by the industry that the calibration is done only once in a year. The unit failed to produce calibration certificate.
- vi. The Unit has obtained combined order of Consent / Authorization issued by Telangana State Pollution Control Board under the Water (Prevention & Control of Pollution) Act, 1974; Air (Prevention & Control of Pollution) Act, 1981 and Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016 which are valid upto 31.10.2018.

NOW, THEREFORE, in exercise of powers vested under Section 5 of the Environment (Protection) Act, 1986, **M/s M.A. Raheem Quraishi & Sons, 6-13-38, Safai Basthi, Kothagudem, Telangana** is hereby directed to comply with the following directions:

1. The Unit shall rectify the problem of OCEMS instrument immediately and shall calibrate OCEMS regularly as per protocol to ensure correct effluent monitoring.
2. The Unit shall ensure proper maintenance and operation of OCEMS so as to obtain continuous accurate results in respect of all the parameters namely pH, TSS, COD, BOD and flow.
3. The unit shall explain the reasons for large variations observed between laboratory analysis results and OCEMS values.
4. The Unit shall install electromagnetic water meter at the bore-well and shall maintain records of the same.
5. The Unit shall ensure compliance with the prescribed discharge norms and proper functioning of OCEMS at all the times.

The Unit shall immediately initiate necessary actions in respect of directions as mentioned in 1 to 5 above and submit compliance report to CPCB within 30 days.

In case of default in compliance with the above directions, CPCB will be constrained to initiate appropriate actions against the Unit, without giving any further notice, in accordance with provisions of the Environment (Protection) Act, 1986.

(S.P. Singh Parihar)
Chairman
