

Comprehensive Industry Document on Coffee Processing Industry

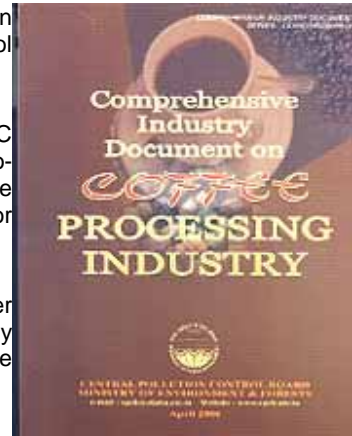

Foreword

Central Pollution Control Board (CPCB) has conducted in-depth studies in selected coffee processing units to assess the performance of pollution control facilities adopted by the units.

The basic document in coffee processing industries was prepared by ENC Consulting Engineers. Sh. H.K.Karforma, SEE and Sh. S.K. Gupta, EE have coordinated project activities and prepared the present report under the guidance of Dr. B. Sengupta, Member Secretary and Sh. P.M.Ansari, Additional Director of Central Pollution Control Board.

The help and assistance rendered by Tata Coffee Estate, Hindustan Lever Limited, Coffee Board and KSPCB in preparing the report is gratefully acknowledged. Ms. Hima jwala, JRF and Sh Narain Singh provided the secretarial assistance.

I trust the document will be useful to all those interested in pollution control in wet coffee plantations and instant coffee manufacturing processes.
