B-29016/04/IPC-I/

To,

M/s Shreyas Intermediates,
Plot No. D-21 & Plot No. D-22, D-23 and D-24,
MIDC Lote Parashuram,
Tal. Khed, Dist- Ratnagiri, Maharashtra

Sub: Direction under Section 5 of the Environment (Protection) Act, 1986 - Notice thereof.

WHEREAS, Central Pollution Control Board, Regional Directorate, Vadodara inspected M/s Shreyas Intermediates, MIDC Lote Parashuram, Tal. Khed, Dist- Ratnagiri, Maharashtra. (hereinafter called as the unit) on April 18, 2018 to investigate the complaint made by Sh. Saif Chougule & to assess the adequacy of the existing pollution control measures and made the following observations:

1. The unit is a pigment manufacturing industry.
2. The industry is having two independent consolidated consent and authorisation (CC&A) from Maharashtra Pollution Control Board (MPCB) for manufacturing activities at different plot numbers within the same premises i.e. one CC&A pertains to Plot No. D-21 and second CC&A pertains to Plot No. D-22, D-23 and D-24.
3. The CC&A which was granted to the unit by MPCB for the Plot No. D-21 is valid upto 28.02.2021 and the CC&A granted to the unit for the Plot No. D-22, D-23 and D-24 was valid up to 30.11.2017.
4. The unit has two effluent treatment plants, one at Plot No. D-21 and another at Plot No. D-22, D-23 and D-24. The treated effluent is reused and excess treated effluent is sent to CETP.
5. Treated effluent from ETP at Plot No. D-22, D-23 and D-24 is not meeting MPCB prescribed standards for COD (636 > 250 mg /l) and BOD (217 > 100 mg/l),
6. Treated effluent from ETP at Plot No. D-21 is not meeting MPCB prescribed standards for pH (9.19 > 8.5), TSS (144 > 100 mg /l), COD (1986 > 250 mg /l), BOD (200 > 100 mg/l), Phenols (9.74 > 1mg/l), Sulphate (5813 > 600 mg /l), Copper (47.494 > 3 mg/l) and Zinc (5.193 > 5 mg/l).
7. The operational pumps in ETP and process areas were observed having leakages. There was a patch of wastewater accumulated on the ground within the premises adjacent to the effluent collection sump that was observed to be acidic having high BOD, COD and NH₃-N.
8. Flexible pipes were observed within the ETP area and ETP pipelines were not having identification mark.

9. It was observed that ETP sludge and other waste were lying outside the hazardous waste storage shed in open. The hazardous waste storage shed was small to store all the hazardous waste generated within the unit.

WHEREAS, the Central Government has notified the standards for discharge of environmental pollutants from various categories of industries under the Environment (Protection) Act, 1986 and the rules framed there under; and

WHEREAS, the Ministry of Environment & Forests, Government of India, vide Notifications No. S. O. 157 (E) of 27.02.1996 and S. O. 730 (E) dated 10.07.2002, has delegated the powers vested under Section 5 of the Environment (Protection) Act, 1986 (29 of 1986) to the Chairman, Central Pollution Control Board, to issue directions to any industry or any local body or any other authority for violations of the standards and rules notified under the Environment (Protection) Rules, 1986 and amendment thereof; and

NOW, THEREFORE, under section 5 of the Environment (Protection) Act, 1986, notice is hereby issued to **M/s Shreyas Intermediates, Plot No. D-21 & Plot No. D-22, D-23 and D-24, MIDC Lote Parashuram, Tal. Khed, Dist- Ratnagiri, Maharashtra** to show cause why your unit shall not be directed to close down all operational activities with immediate effect until following directions are compiled:

1. The unit shall obtain valid consent to operate from Maharashtra Pollution Control Board for its manufacturing facilities installed at Plot No. D-22, D-23 and D-24.
2. The unit shall augment and operate both Effluent Treatment Plants to achieve Maharashtra Pollution Control Board prescribed standards.
3. The unit shall construct proper wastewater collection channels within the premises for proper collection and treatment of wastewater in ETP and to ensure no unauthorized discharge.
4. The unit shall remove flexible pipelines from the ETP area and ETP pipelines shall have proper colour coding for identification.
5. The unit shall take adequate steps for proper storage of hazardous waste as per Hazardous & other Waste (Management and Transboundary Movement) Rules, 2016.
6. The unit shall dismantle the sump outside its premises.

The time bound action plan for compliance of above directions shall be submitted to Central Pollution Control Board within 30 days of the receipt of the directions. In case of failure to comply with the said directions necessary action as deemed fit under the provision of the Environment (Protection) Act, 1986 will be taken by Central Pollution Control Board.

(S. P. Singh Parihar)
Chairman

(M/s Shreyas Intermediates, Plot No. D-21 & Plot No. D-22, D-23 and D-24, MIDC Lote Parashuram, Tal. Khed, Dist- Ratnagiri, Maharashtra)
