M/s Avadh Sugar & Energy Ltd.
Unit: Rosa Sugar Works.,
Rosa, Shahjahanpur,
Uttar Pradesh-242 406

DIRECTION UNDER SECTION 5 OF THE ENVIRONMENT (PROTECTION) ACT, 1986-

WHEREAS, the Central Government has notified the standards for discharge of environmental pollutants from various categories of industries under the Environment (Protection) Act, 1986 and the rules framed there under; and

WHEREAS, the Ministry of Environment & Forests, Govt. of India, vide notification S.O.157(E) of 27.02.1996 has delegated powers vested under Section 5 of the Environment (Protection) Act, 1986 (29 of 1986) to the Chairman, Central Pollution Control Board (CPCB), to issue direction to any industry, Municipal Corporation, Municipal Council, Cantonment Board to any local or other Authority for the violation of emission and effluent standards notified under the Environment (Protection) Rules, 1986; and

WHEREAS, it is obligatory on the part of industries to install effluent treatment plants (ETPs) to comply with the effluent discharge standards as notified under the Environment (Protection) Act, 1986 and the Rules framed thereunder and also to meet the consent conditions granted by State Pollution Control Board (SPCBs) / Pollution Control Committees (PCCs); and

WHEREAS, M/s Rosa Sugar Works., Rosa, Shahjahanpur, U.P. (hereinafter referred as 'the Unit') is involved in the process of sugar manufacturing from crushing of cane; and

WHEREAS, CPCB issued direction dated 16.06.2017 under section 5 of Environment (Protection) Act, 1986 to the Unit for carrying out ETP adequacy assessment by reputed institutions; and

WHEREAS, CPCB received adequacy assessment report vide letter dt. 15.09.2017 from the unit prepared by VSI, Pune; and

WHEREAS, CPCB issue direction dated 10.11.2017 under section 5 of Environment Protection Act, 1986 to the Unit; and

(Contd..2/-)

AND WHEREAS, the Unit was inspected on 30.01.2018 by officials from CPCB, and following observations were made;

1. During the inspection, the Unit and ETP were in operational.
2. Spray pond overflow is partially bypassed and discharged directly outside the premises through undefined channel into drain, which meets Garra River and ultimate to River Ganga.
3. The multiple outlets (3 Nos.) were found in addition to ETP outlet.
4. The analysis of treated effluent sample showed pH-7.57 as against norms of 5.5-9.0, BOD-7.3 mg/l against norms of 30 mg/l, COD- 27.7 mg/l against norms of 250 mg/l, TSS- 3.6 mg/l against norms of 30 mg/l.
5. The analysis of untreated effluent sample being discharged outside the Unit's premises showed **pH-4.20** as against norms of 5.5-9.0, **BOD-703 mg/l** against norms of 30 mg/l, **COD- 1277 mg/l** against norms of 250 mg/l, **TSS- 95.2 mg/l** against norms of 30 mg/l with the effluent surface discharge norms prescribed under Environment (Protection) Rules, 1986.
6. The analysis of underground water sample showed **total hardness-344 mg/l, Ca²⁺-80.8 mg/l and Mg²⁺-34.5 mg/l** which is higher than the permissible limit.
7. The Unit has installed Effluent Treatment Plant (ETP) which is comprised of Equalization tank, primary clarifier, aeration tank, secondary clarifier and tertiary system.

AND WHEREAS, CPCB issued direction dated 16.04.2018 under Section 5 of the Environment (Protection) Act, 1986 the unit to comply the following:

1. The Unit is directed to close down its Sugar manufacturing operations with immediate effect and shall not resume its operations.
2. The Unit shall dismantle the bypass arrangement and stop untreated effluent discharge immediately.
3. The Unit shall install & Commission ETP system upto tertiary treatment level including adequate treatment system for spray pond overflow effluent in case of double sulphitation process.
4. The Unit having high-pressure boiler (>45 Kg/cm²) shall install & Commission Condensate Polishing Unit (CPU) for treatment of condensate water to ensure its reuse & recycle within the process and shall meet the notified standard.
5. The Unit shall restrict the effluent storage capacity to 15 days.
6. The Unit shall submit irrigation management plan and utilise treated effluent meeting the prescribed norms for irrigation as per the irrigation management plan validated by expert institutions namely, NSI, Kanpur/ VSI, Pune/ Agricultural Institutions.
7. The Unit shall get the verification of implement status of the recommendation of adequacy report including ETP performance assessment & effluent generation assessment done by the same institute which carried out adequacy assessment and submit the report to CPCB.
8. The Unit shall submit the revalidated ETP adequacy assessment report to CPCB.

(Contd..3/-)

9. The Unit shall inform to CPCB about the Closure of operation immediately.
10. The Unit shall seek permission from CPCB before resumption of manufacturing operations.

AND WHEREAS, the Unit's replies dated 20.5.2018 & 01.06.2018 were examined; and

WHEREAS, the Unit was inspected on 14.5.2018 & 15.5.2018 by officials from CPCB, and following observations were made;

1. The villagers informed that the mortality of fishes was happened in the downstream of Rausar Kothi Village. No dead fishes were seen by them in the upstream of the confluence of Kalaha Nalla and River Garra.
2. The colour water flowing through Kalaha Nalla was observed.
3. The management of molasses was very poor in the unit.
4. The unit has stored the molasses in a permeable unlined lagoon.
5. The molasses were flown through the drain into River Garra.
6. The unit was discharging coloured molasses mixed with effluent to Kalaha Nalla.
7. The molasses were found discharge over the land within and outside the premises.

WHEREAS, CPCB issued direction dated 25.05.2017 under section 18 (1) (b) of Environment (Protection) Act, 1986 to the UPPCB; and

WHEREAS, UPPCB has informed vide letter dated 07.08.2018 to CPCB to issue the Closure direction under section 33A of Water (Prevention and Control of Pollution) Act, 1974 to the unit; and

WHEREAS, the Unit submitted the revalidated adequacy assessment reports and irrigation management plan prepared by VSI, Pune vide letter dt. 01.06.2018; and as per the report following recommendations have been made by VSI, Pune:

1. Flow meters to be installed at major unit operations to ascertain and control hot and cold-water requirement.
2. Flow meters to be installed at various consumption points.
3. Flow meters to be installed at ETP inlet and outlet.
4. Cooling water from gland of boiler feed pump and Boiler blow down water to be used in wet scrubber.
5. Construct a common collection tank and collect condensate water from all traps.
6. The unit is having adequate treatment facility for the installation capacity of 4200 TCD and effluent generation is estimated as 147.47 litre/tonne for cane crushed

AND WHEREAS, CPCB through an Expert Committee comprising of experts from National Sugar Institute (NSI), Kanpur, Vasantdada Sugar Institute (VSI), IITs and representatives from sugar mills prepared a Charter for Water Recycling and Pollution Prevention (thereafter referred to as the Charter); and

(Contd..4/-)

WHEREAS, a meeting of sugar mills operating in Uttar Pradesh, representatives of UPPCB and CPCB was held on 06.07.2018 under Chairmanship of Principal Secretary, Sugar Industries and Sugarcane Development, Government of Uttar Pradesh and the following decisions are made

1. Sugar Mills shall submit an action plan to CPCB by 20.07.2018 regarding the steps taken by them pertaining to the notices issued to them. Also they shall submit action plan to implement recommendations of their adequacy assessment report.
2. All sugar mills shall ensure implementation of Charter and shall submit action plan to CPCB by 20.08.2018.
3. All sugar mills shall ensure the upgradation of their ETP within August, 2018 so as to ensure no interruption in functioning of the ETP in the following seasons.
4. All sugar mills shall maintain a logbook on ETP operations on a daily basis.
5. ETP shall be operational at all times and all bypass arrangements should be dismantled with immediate effect.
6. MLSS in aeration tanks should be maintained at 2000-2500 mg/l.
7. All sugar units shall set up environmental laboratories for regular analysis of raw and treated effluent thereby ensuring proper functioning of the ETP.
8. All sugar mills shall employ dedicated technicians for operating and regular maintenance of ETP and shall also ensure that the technicians are given proper training on ETP maintenance and lab analysis on regular basis.
9. To ensure proper training of the environmental technicians all sugar mills shall facilitate training of 5 employees.
10. All sugar mills may establish an Environment Management Cell at their level consisting of concerned officials in order to ensure compliance with environmental standards at industry level itself.

AND WHEREAS, the unit vide letter dated 18.07.2018 submitted their compliance status of the Charter, which was examined and following observations were made:

1. The unit is in the process of installing necessary flow meters at requisite points as prescribed under the Charter and has assured completion of the same by before start of crushing season.
2. The unit has submitted action plan/ compliance report on upgradation of ETP.
3. The unit is maintaining proper logbook for bore-well readings thereby recording their fresh water consumption on regular basis.
4. The unit has stated that no untreated/ partially treated effluent is being discharged on land.
5. The unit shall employ hydro-jet for cleaning of heat exchanger unit.
6. The unit has already set up environmental laboratory with dedicated technical staff.
7. The unit has planned to arrange training for its technical staff on ETP Operation and Maintenance.
8. The unit has submitted compliance report on BMT for Water Recycling and Pollution Prevention.

(Contd..5/-)

AND WHEREAS, the Three Member Committee in its meeting held on 08.10.2018 examined the revalidated adequacy assessment report, & implementation status of the Charter and recommended that the unit may be allowed to resume operation.

AND NOW, THEREFORE, in view of above observations and in exercise of the powers delegated to the Chairman, CPCB under section 5 of the Environment (Protection) Act, 1986, the unit (M/s Rosa Sugar Works., Rosa, Shahjahanpur, U.P.) is directed to comply with the following directions before commencement of crushing season 2018-2019;

1. The unit shall start its operation only after obtaining the valid consent from the Uttar Pradesh Pollution Control Board.
2. The unit shall implement the observation & recommendation of the revalidated adequacy assessment of ETP.
3. The unit shall install sealed flow meter along with running hours meter on bore wells so as to ascertain usage of fresh water for various uses.
4. The unit shall install flow meters at major areas of cold and hot water consumption.
5. The unit shall install flow meters for measuring generation of effluent from various prominent areas.
6. The unit shall maintain logbook for individual process unit for recording daily water consumption and effluent generation also.
7. The unit shall carry out colour coding of pipelines carrying recycled process water and fresh process water.
8. The Unit shall commission mechanical sludge handling system of adequate capacity.
9. The unit shall carry out analysis of effluent discharge parameters notified under Environment (Protection) Rules, 1986 and logbook shall be maintained on daily basis.
10. The unit shall submit the implementation status of the Charter in the form of Affidavit and the documentary proof of the completion of the work as committed in the action plan before resumption of crushing season 2018-2019.
11. The unit shall submit implementation status of the Charter and performance adequacy audit of ETP including actual assessment of water consumption and effluent generation duly validated by reputed Govt. expert institute namely NSI Kanpur, VSI Pune, IITs during crushing season & submit the report to CPCB within 60 days of resumption of operation.

In case of default in compliance with the above directions, CPCB will be constrained to initiate action against the Unit (M/s Rosa Sugar Works., Rosa, Shahjahanpur, U.P.) without giving any further notice in accordance with the provisions of the Environment (Protection) Act, 1986.
