To,

M/s Kisan Sahkari Chini Mill Ltd.
Ghosi, Mau-275304,
Uttar Pradesh

DIRECTION UNDER SECTION 5 OF THE ENVIRONMENT (PROTECTION) ACT, 1986

WHEREAS, the Central Government has notified the standards for discharge of environmental pollutants from various categories of industries under the Environment (Protection) Act, 1986 and the rules framed there under; and

WHEREAS, the Ministry of Environment & Forests, Govt. of India, vide notification S.O.157(E) of 27.02.1996 has delegated powers vested under Section 5 of the Environment (Protection) Act, 1986 (29 of 1986) to the Chairman, Central Pollution Control Board (CPCB), to issue direction to any industry, Municipal Corporation, Municipal Council, Cantonment Board to any local or other Authority for the violation of emission and effluent standards notified under the Environment (Protection) Rules, 1986; and

WHEREAS, it is obligatory on the part of industries to install effluent treatment plants (ETPs) to comply with the effluent discharge standards as notified under the Environment (Protection) Act, 1986 and the Rules framed thereunder and also to meet the consent conditions granted by State Pollution Control Board (SPCBs) / Pollution Control Committees (PCCs); and

WHEREAS, M/s Kisan Sahkari Chini Mill Ltd., Ghosi, Mau, U.P. (hereinafter referred as 'the Unit') is involved in the process of sugar manufacturing from crushing of cane; and

WHEREAS, CPCB issued direction dated 23.06.2017 under section 5 of Environment (Protection) Act, 1986 to the Unit for carrying out ETP adequacy assessment by reputed institutions;

WHEREAS, CPCB received adequacy assessment report vide letter dt. 06.10.2017 from the unit prepared by VSI, Pune; and

WHEREAS, CPCB issued direction dated 10.11.2017 under section 5 of Environment (Protection) Act, 1986 to the Unit to comply with the following directions;

WHEREAS, the Unit has submitted the implementation of action plan vide letter dt. 30.11.2017 to CPCB; and

(Contd..2/-)

WHEREAS, the Unit was inspected on 17.01.2018 by officials from CPCB and UPPCB following observations were made;

1. During the inspection, the Unit and ETP were operational.
2. The Unit does not have valid consent since 2014 under Water (Prevention and Control of Pollution) Act, 1974 & Air (Prevention and Control of Pollution) Act, 1981.
3. The Unit has installed Effluent Treatment Plant (ETP), which is comprised of Mechanical Oil and Grease Skimmer, Equalisation Tank, Primary Clarifier, Aeration Tank, Secondary Clarifier, Chlorination Tank, Multi Grade Filter, Activated Carbon Filter, Sludge Drying Beds.
4. Analysis of treated effluent sample showed pH-7.29 as against norms of 5.5-9.0, BOD-7.6 mg/l against norms of 30 mg/l, COD-34.6 mg/l against norms of 250 mg/l and TSS-20 mg/l against norms of 30 mg/l. However, MLSS in aeration tank was 347 mg/l which indicated the possibility of dilution of ETP system.
5. Spray pond overflow effluent is discharged without treatment and the analysis of Spray pond overflow effluent sample showed **BOD-390 mg/l** against norms of 30 mg/l, **COD-546 mg/l** against norms of 250 mg/l, **TSS- 81.1 mg/l** against norms of 30 mg/l which indicated non-compliance w.r.t. BOD, COD & TSS with the effluent surface discharge norms prescribed under Environment (Protection) Rules, 1986.
6. The MLSS in aeration tank was 347 mg/l which indicates unstabilised Activated Sludge Process system due to poor operation and maintenance of ETP system.
7. Analysis of drain effluent sample shows **BOD-164 mg/l** against norms of 30 mg/l & **TSS- 148 mg/l** against norms of 30 mg/l which is higher than permissible limit.
8. OCEMS is installed and connected with CPCB server but pH sensor was non-functional during inspection.
9. Effluent discharge was **268 L/t** which is higher than permissible limit.
10. The Unit has two boilers of capacity 20 TPH each and one boiler with capacity 32 TPH. Emissions from 20 TPH boilers are emitted through common stack of height approx. 30 m without APCS (Air Pollution Control System) and emission from 30 TPH boiler is emitted through stack of height approx. 40.55 m which is equipped with Cyclone Dust Collector as APCS. It shows non-compliance with the stipulated norms.

AND WHEREAS, CPCB issued direction dated 19.04.2018 under Section 5 of the Environment (Protection) Act, 1986 the unit to comply the following:

1. The Unit is directed to close down its Sugar manufacturing operations with immediate effect and shall not resume its operations.
2. The Unit shall obtain valid consent under Water/Air Acts from UPPCB and submit the copies of valid consent to CPCB.
3. The Unit shall stop untreated effluent discharge immediately.
4. The Unit shall install & Commission ETP system upto tertiary treatment level including adequate treatment system for spray pond overflow effluent in case of double sulphitation process.

(Contd..3/-)

5. The Unit having high-pressure boiler (>45 Kg/cm²) shall install & Commission Condensate Polishing Unit (CPU) for treatment of condensate water to ensure its reuse & recycle within the process and shall meet the notified standard.
6. The Unit shall restrict the effluent storage capacity to 15 days.
7. The Unit shall submit irrigation management plan and utilise treated effluent meeting the prescribed norms for irrigation as per the irrigation management plan validated by expert institutions namely, NSI, Kanpur/ VSI, Pune/ Agricultural Institutions.
8. The Unit shall submit revalidated ETP adequacy assessment report to CPCB.
9. The Unit shall get the verification of implement status of the recommendation of adequacy report including ETP performance assessment & effluent generation assessment done by the same institute which carried out adequacy assessment and submit the report to CPCB.
10. The Unit shall inform to CPCB about the Closure of operation immediately.
11. The Unit shall seek permission from CPCB before resumption of manufacturing operations.

AND WHEREAS, the compliance status of the direction 19.4.2018 submitted by the unit vide letters dated 31.7.2018 & 26.9.2018 were examined; and

WHEREAS, CPCB through an Expert Committee comprising of experts from National Sugar Institute (NSI), Kanpur, Vasantdada Sugar Institute (VSI), IITs and representatives from sugar mills prepared a Charter for Water Recycling and Pollution Prevention (thereafter referred to as the Charter; and

WHEREAS, a meeting of sugar mills operating in Uttar Pradesh, representatives of UPPCB and CPCB was held on 06.07.2018 under Chairmanship of Principal Secretary, Sugar Industries and Sugarcane Development, Government of Uttar Pradesh and the following decisions are made

1. Sugar Mills shall submit an action plan to CPCB by 20.07.2018 regarding the steps taken by them pertaining to the notices issued to them. Also they shall submit action plan to implement recommendations of their adequacy assessment report.
2. All sugar mills shall ensure implementation of Charter and shall submit action plan to CPCB by 20.08.2018.
3. All sugar mills shall ensure the upgradation of their ETP within August, 2018 so as to ensure no interruption in functioning of the ETP in the following seasons.
4. All sugar mills shall maintain a logbook on ETP operations on a daily basis.
5. ETP shall be operational at all times and all bypass arrangements should be dismantled with immediate effect.
6. MLSS in aeration tanks should be maintained at 2000-2500 mg/l.
7. All sugar units shall set up environmental laboratories for regular analysis of raw and treated effluent thereby ensuring proper functioning of the ETP.

(Contd..4/-)

8. All sugar mills shall employ dedicated technicians for operating and regular maintenance of ETP and shall also ensure that the technicians are given proper training on ETP maintenance and lab analysis on regular basis.
9. To ensure proper training of the environmental technicians all sugar mills shall facilitate training of 5 employees.
10. All sugar mills may establish an Environment Management Cell at their level consisting of concerned officials in order to ensure compliance with environmental standards at industry level itself.

AND WHEREAS, the unit vide letters dated 14.07.2018 & 31.07.2018 submitted their compliance status of the Charter, which was examined and following observations were made:

1. The unit is in the process of installing necessary flow meters at requisite points as prescribed under the Charter and has assured completion of the same by 31.08.2018.
2. The unit is maintaining proper logbook for bore-well readings thereby recording their fresh water consumption on regular basis.
3. The unit has stated that no untreated/ partially treated effluent is being discharged on land.
4. The unit shall employ hydro-jet for cleaning of heat exchanger unit.
5. The unit has proposed to set up environmental laboratory with dedicated technical staff.
6. The unit has planned to arrange training for its technical staff on ETP Operation and Maintenance.
7. The unit has submitted compliance report on BMT for Water Recycling and Pollution Prevention.

AND WHEREAS, the Three Member Committee in its meeting held on 08.10.2018 examined the revalidated adequacy assessment report, & implementation status of the Charter and recommended that the unit may be allowed to resume operation.

AND NOW, THEREFORE, in view of above observations and in exercise of the powers delegated to the Chairman, CPCB under section 5 of the Environment (Protection) Act, 1986, the unit (M/s Kisan Sahkari Chini Mill Ltd., Ghosi, Mau, U.P.) is directed to comply with the following directions before commencement of crushing season 2018-2019;

1. The unit shall start its operation only after obtaining the valid consent from the Uttar Pradesh Pollution Control Board.
2. The unit shall submit the revalidated adequacy assessment of ETP report along with the recommendation of the revalidated adequacy assessment report to CPCB within 60 days of resumption of operation of crushing season 2018-2019.
3. The unit shall install sealed flow meter along with running hours meter on bore wells so as to ascertain usage of fresh water for various uses.
4. The unit shall install flow meters at major areas of cold and hot water consumption.
5. The unit shall install flow meters for measuring generation of effluent from various prominent areas.

(Contd..5/-)

6. The unit shall maintain logbook for individual process unit for recording daily water consumption and effluent generation also.
7. The unit shall carry out colour coding of pipelines carrying recycled process water and fresh process water.
8. The Unit shall commission mechanical sludge handling system of adequate capacity
9. The unit shall carry out analysis of effluent discharge parameters notified under Environment (Protection) Rules, 1986 and logbook shall be maintained on daily basis.
10. The unit shall submit the implementation status of the Charter in the form of Affidavit and the documentary proof of the completion of the work as committed in the action plan.
11. The unit shall submit implementation status of the Charter and performance adequacy audit of ETP including actual assessment of water consumption and effluent generation duly validated by reputed govt. expert institute namely NSI Kanpur, VSI Pune, IITs during crushing season & submit the report to CPCB within 60 days of resumption of operation

In case of default in compliance with the above directions, CPCB will be constrained to initiate action against the Unit (**M/s Kisan Sahkari Chini Mill Ltd., Ghosi, Mau, U.P.**) without giving any further notice in accordance with the provisions of the Environment (Protection) Act, 1986.

(S. P. SINGH PARIHAR)
CHAIRMAN
