To,

**M/s SAB MILLER India Ltd.,  
Kankarkheda, Meerut Cant.,  
Meerut, U.P. -250001**

**DIRECTION UNDER SECTION 5 OF THE ENVIRONMENT (PROTECTION) ACT,  
1986**

**WHEREAS**, the Central Government has notified the standards for discharge of environmental pollutants from various categories of industries under the Environment (Protection) Act, 1986 and the rules framed there under; and

**WHEREAS**, the Ministry of Environment & Forests, Govt. of India, vide notification S.O.157(E) of 27.02.1996 has delegated powers vested under Section 5 of the Environment (Protection) Act, 1986 (29 of 1986) to the Chairman, Central Pollution Control Board (CPCB), to issue direction to any industry, Municipal Corporation, Municipal Council, Cantonment Board to any local or other Authority for the violation of emission and effluent standards notified under the Environment (Protection) Rules, 1986; and

**WHEREAS**, it is obligatory on the part of industries to install effluent treatment plants (ETPs) to comply with the effluent discharge standards as notified under the Environment (Protection) Act, 1986 and the Rules framed there under and also to meet the consent conditions granted by State Pollution Control Board (SPCBs) / Pollution Control Committees (PCCs); and

**WHEREAS**, M/s SAB MILLER India Ltd., Meerut Cant., U.P. (hereinafter referred as 'the Unit') is involved in the production of beer using malt, barley and rice flakes as raw material; and

**WHEREAS**, the unit was inspected by officials of CPCB and UPPCB on 27.03.2018 for compliance verification of industries generating effluent 100 KLD or above as per the Hon'ble NGT order dated 13.07.2017. The inspection report was examined and the following observations are made:

1. The unit with an installed production capacity of 30,000 KL/annum, was found operational at the time of inspection.
2. ETP of the unit consists of Bar screen, Equalization tank, Accelerated gravity separator, Buffer tank sludge separator, UASB, Aeration tank and Secondary clarifier.

**(Contd..2/-)**

3. The unit is abstracting 550 KLPD fresh water from 3 bore wells.
4. The unit has valid consents under Water (Prevention and Control of Pollution) Act, 1974 & Air (Prevention and Control of Pollution) Act, 1981 upto 31.12.2018.
5. The unit has not provided any information on the status of NOC from CGWA.
6. The unit has not installed flow meter at the outlet of the ETP.
7. The unit has not installed Online Continuous Monitoring Systems for Effluent (OCEMS).
8. Analysis result of samples collected from ETP outlet shows that BOD of **950 mg/l** (as against the standard limit of 30 mg/l), COD of **1621 mg/l** (as against the standard limit of 250 mg/l) and TSS of **240 mg/l** (against the standard limit of 100 mg/l) is being discharged into the Abu Nallah 2, thereby violating the effluent discharge norms as prescribed under the Environment (Protection) Rules, 1986.

**AND WHEREAS**, CPCB issued a closure direction dated 04.06.2018 under section 5 of the Environment (Protection) Act, 1986, to the unit; and

**WHEREAS**, the unit representation vide letter dated 12.6.2018 allowing to package 16900 hl beer in tanks was examined; and

**WHEREAS**, CPCB vide letter dated 15/06/2018 permitted the unit to undertake bottling of the already manufactured beer present in their storage tank within 10 days; and

**WHEREAS**, the unit vide letter dated 21.06.2018 requested permission for additional five days of bottling; and

**WHEREAS**, CPCB vide letter dated 25.06.2018 permitted the unit to undertake bottling of already manufactured beer present in their storage tanks under the supervision of officials of Uttar Pradesh Pollution Control Board (UPPCB) and officials of Department of Excise, Govt of Uttar Pradesh, from 16<sup>th</sup> to 29 June 2018, thereby completing the bottling operations within 15 days from the date of recipient of the letter issued dated 15 June, 2018, with the condition that no effluent is discharged into the environment during the bottling process; and

**AND WHEREAS**, the unit replies vide letter dated 04.07.2018 and 10.07.2018 were examined and following observations are made:

1. The unit has installed OCEMS and established connectivity with CPCB server.
2. The unit had applied for NOC from CGWA.
3. The unit has submitted adequacy assessment report validated by NSI, Kanpur.
4. As per the adequacy report, the installed capacity of the unit is 36000 KL/annum and ETP system is adequate.
5. ETP consists of equalization tank, accelerator gravity separator, buffer tank, UASBR, aeration tank, secondary clarifier tank and sludge holding tank.
6. ETP performance could not be determined since the plant was not in operation during the NSI visit.

**(Contd..3/-)**

7. The unit utilizes the treated water in green belt while the surplus is discharged into Abu Nallah-2.
8. The unit has submitted requisite documents like self-certificate and affidavit.

**AND WHEREAS**, a Three Member Committee was constituted by CPCB vide office order dated 27.09.2017 having representatives from CPCB, MoEF & CC and NMCG for examination and recommendation for revocation of the closure direction issued by CPCB, to take a decision on the revocation of the closure direction issued to industries operating in the Ganga basin.

**AND WHEREAS**, the Three Member Committee in its meeting held on 12.07.18, examined the representations of the unit, M/s SAB MILLER India Ltd. and recommended for revocation of closure direction with the following;

1. The committee has recommended to allow operations of the unit for 45 days.
2. The unit is instructed to submit revalidated adequacy assessment report carried out by the institute which has conducted adequacy of assessment and submit the reports within 45 days after resumption of operation.
3. The unit shall submit a daily analysis report on treated effluent quality with the notified parameters analyzed through an EPA recognized laboratory, to the CPCB of 45 days.

**NOW, THEREFORE**, in view of the above and in exercise of the powers delegated to the Chairman, Central Pollution Control Board (CPCB) under section 5 of the Environment (Protection) Act, 1986, **the unit M/s SAB MILLER India Ltd., is hereby directed to comply** with the following:

1. The unit shall operate for a period of 45 days and submit a revalidated adequacy assessment report clearly indicating ETP performance within 45 days of operation.
2. The unit shall submit daily analysis report of treated effluent for the parameters pH, BOD, COD and TSS through an EPA recognized laboratory for 45 days.
3. The unit shall close down its manufacturing operations after 45 days and seek permission from CPCB before resumption of operation.

In case of default in compliance with the above directions by the Unit (**M/s SAB MILLER India Ltd.**), CPCB will be constrained to initiate appropriate action against the Unit, in accordance with the provisions of the Environment (Protection) Act, 1986.
