

Performance Study of Vanaspati Wastewater Treatment Plant at M/s Shri Ram Foods and Fertilizer Industries

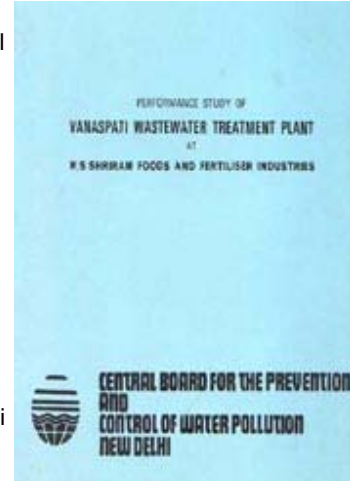

Foreword

The Central Board for the Prevention and Control of Water Pollution, New Delhi, directed M/s Shriram Foods and Fertiliser Industries, Delhi to install a wastewater treatment plant for the Vanaspati unit that was commissioned in October, 1982. Subsequently, the Central Board conducted a performance study of the wastewater treatment plant. The report attempts to evaluate the performance of the treatment plant by characterising influent and effluent of the treatment plant, in terms of parameters like COD, Oil & Grease and Suspended Solids

The necessary information and figures were provided M/s Shriram Foods and Fertiliser Industries and the same is duly appreciated.

Shri D.C. Sharma, Assistant Environmental Engineer was the principal investigator of the project. The project team comprises of Shri D.P. Singh, Shri Paritosh Kumar, Shri T.K. Bandyopadhyay, Shri Rajan Chopra, Shri V. Subramanian, Shri Sanjeev Agarwal, Dr. V.K. Gupta, Shri N.C. Durgapal, Shri R.K. Rastogi, Shri S.K. Tyagi and Dr. D.P. Mukhopadhyay.

Acknowledgement is duly extended to Dr. K.R. Ranganathan, Shri P.M. Ansari and Shri R.N. Sen for critical reading and editing of the manuscript. First draft of the manuscript was typed by Miss Hemlata Muradha, Smt. Sati Setia and the final draft was composed on electronic typewriter by Shri Premankur Barua. The tracings were prepared by Mrs. Bonya Basu and Shri K.K. Gupta.
