

## Organisation and Activities of State Water Pollution Control Boards

### Foreword

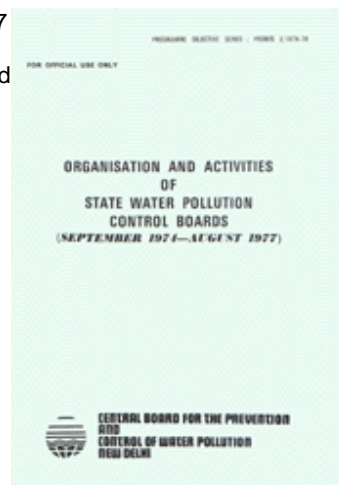

This report compiles the organizational strength as it was on August, 1977 and describes the activities carried out by the State Water Pollution Control Boards including those of the Central Board for the Prevention and Control of Water Pollution during the period between September, 1974 through August, 1977.

The report is prepared by compiling the information matrix provided by each of the State Boards filling up the format circulated by the Central Board. For ready reference the information matrices are included in the Appendix. Based on these information matrices a narration is provided highlighting the success, difficulties, gaps, obligations and future line of action

The report is intended to assess the relative image of each of the State Boards as seen through the national mirror. It should also help to cut across the administrative barrier of the State level machinery in establishing the facts regarding the deficiencies, gaps, achievements of the respective State Board against the backdrop of national performance.

The Central Board gratefully acknowledges the active cooperation received from the State Boards in providing the information matrices which were compiled by Shri Debdutta Basu, scrutinized by Dr. M. Sengupta, typed by Shri K. V. Swaminathan and Shri Bidhi Chand.

The Central Board desires to update the information by including the second 3-year of activities ending August, 1980

**Nilay Chaudhuri**  
Chairman
