

Emission Regulation (July 1985) Part - II

Foreword

This document contains emission regulations for six specific industrial operations selected from the Schedule of Industries listed in the Air (Prevention and Control of Pollution) Act, 1981. The first set of emission regulations for six specific industrial operations selected from the Schedule was published in July, 1984. The other industrial operations listed in the Schedule are under active consideration for the national evolution of emission standards.
