

Inviting Innovative Ideas/ Suggestions/Proposals for Air Pollution Mitigation in Delhi-NCR

Air quality in Delhi-NCR especially during winter season has been a matter of concern, with high pollution episodic events during November 2016 & 2017 and recent dust storm episode in June 2018. Various steps including strengthening of air quality monitoring network, implementation of Graded Response action plan (GRAP), Comprehensive Action Plan(CAP), BS-IV emission norms, strict vigilance of red categories of industries, issuing directions and follow up on control of construction & demolition dust, waste burning, landfill site emissions, etc. have been taken. Deployment of various air pollution mitigation technologies is also being explored.

CPCB, invites innovative ideas/ suggestions/proposals from public to strengthen efforts for improving air quality in Delhi-NCR. The same may be sent to “The Member Secretary, Central Pollution Control Board, ‘Parivesh Bhawan’, CBD-cum-Office Complex, East Arjun Nagar, Delhi- 110032” or through email to aqm.cpcb@nic.in.
