In this regard, Haryana PCB has submitted action plans for Panipat, Gurgaon and Faridabad. The Central Board after looking into the action plan, suggests the following views/recommendations for consideration and incorporation in the action plan:

- Providing details on constitution of District/State Level Committees (date of constitution, composition etc.) for the preparation and execution of the action plans
- Providing timelines, for completion of all short term long term action points, with specific end dates, for Panipat and Faridabad.
- Providing action points along with timelines to achieve the restoration of polluted water bodies/ contaminated sites.
- Installation of online continuous ambient air/ water quality monitoring stations as per the requirement of CEPI-2016 methodology.
- Carrying out source apportionment study in order to identify the sources of pollution for further planning of pollution control.

- Providing action plans for control of pollution from road dust, construction activities and burning of garbage.
- Providing list of 17 most polluting and Red category industries
- Providing the frequency/periodicity of inspection/ monitoring, for ongoing activities, related to maintaining ambient air, surface water and groundwater quality.

It is requested to modify the action plans accordingly, and upload the same at the website of Haryana PCB. The progress of implementation of action plans should be reviewed quarterly by the concerned Committees, constituted for the purpose, and the status report should be uploaded at the website.

It is further requested to provide a hard copy and also a soft copy of revised action plans to the Central Board.

Yours faithfully,
