## **Scope of Problem Statement**

This Ideation Hackathon aims to identify valuable resources and potential products from waste streams and utilize it for its environmental and economic value. The vital aspect of conducting this Hackathon is to invite original ideas that would ensure waste to wealth conversion for effective reuse, reduce, recycling, refurbishing & repurposing of following categories of wastes,

- 1. Battery Waste <a href="https://cpcb.nic.in/rules-5/">https://cpcb.nic.in/rules-5/</a>
- 2. Plastic waste <a href="https://cpcb.nic.in/rules-4/">https://cpcb.nic.in/rules-4/</a>
- 3. Electronic waste <a href="https://cpcb.nic.in/e-waste/">https://cpcb.nic.in/e-waste/</a>
- 4. Crop residues <a href="https://cpcb.nic.in/uploads/AQM/TERI\_Brief\_Report.pdf">https://cpcb.nic.in/uploads/AQM/TERI\_Brief\_Report.pdf</a>

The presented ideas/ solutions should not be part of any existing notified Waste Rule (refer links above for more information).
